# Empowering Students, Expanding Horizons: A Note from the Desk of CA Abhishek R. Vaishya

As a proud Managing Committee Member of the ICAI Muscat Chapter, it gives me immense joy to reflect on the remarkable journey we've had in the latest quarter of 2024. My role in handling Students' Affairs, IT, PR, and Media brings unparalleled opportunities to contribute to the growth of young talent and to strengthen the chapter's outreach and impact.

## Engaging Initiatives for Students

This quarter, we saw student-centric activities take center stage. Our flagship programs aimed at equipping young professionals with technical expertise and soft skills saw incredible participation and enthusiasm. From career guidance seminars to interactive mentorship sessions, we ensured students had ample opportunities to gain clarity about their career paths and align with global professional standards.

One of the standout moments was the Avenir 2024 event, where seasoned professionals shared their journeys and inspired students to dream big and think globally. The overwhelming response to this initiative reinforces our belief in empowering students with knowledge, confidence, and a vision for the future.

## Leveraging Technology for Growth

In IT, we've continued to innovate and integrate digital tools to enhance the experience for our members and students. The successful Power BI Workshop held in October showcased how technology can transform data into powerful business insights. It's heartening to see members embrace technology-driven solutions with open arms, setting the stage for a tech-savvy professional community.

Our digital newsletter and social media outreach have also been pivotal in connecting with members. Whether it's live updates, event highlights, or interactive posts, our online platforms have become a hub for engagement and learning.

## Shaping the Future through Collaboration

In collaboration with global organizations like ICAEW, we've opened pathways for our members to explore international memberships and strengthen their global standing. Events like the Pathways Route to ICAEW for ICAI Members have been instrumental in broadening horizons and inspiring professionals to aim higher.

## A Growing Community with Inspiring Milestones

This quarter, we celebrated the success of numerous CPE events, including the recent session on "Lessons from the Satyam Turnaround Story" by Padmashri CA (Dr.) T N Manoharan. These events not only provide unparalleled learning but also remind us of the strength and camaraderie of our professional community.

I'm particularly thrilled about the growing participation from members in all walks of life, contributing to the vibrant, dynamic ecosystem we've nurtured at ICAI Muscat Chapter. The continued support from corporate sponsors and the overwhelming response from members motivate us to push boundaries and achieve even greater milestones.

## Looking Ahead

As we step into next quarter, I invite each of you to actively participate in our upcoming initiatives. Whether as mentors, learners, or contributors, let's continue to inspire and uplift each other. Together, we can transform challenges into opportunities and dreams into reality.

To our students, members, and well-wishers—thank you for being the heart of this chapter. Your dedication fuels our drive to create a legacy of excellence and empowerment.

With best wishes and gratitude,

## CA Abhishek R. Vaishya

## Daisy & Dark

Summer heat could never hold Daisy, Jack & Danny back from playing in their garden and the nearby park. But, when it became evening the boys ran inside but Daisy was brave unlike them. When she went inside their mother asked them, "Don't you want to play little bit more time." The boys said, "No!" Daisy nodded her head and said "I want to go out." Her mother said "Ok but come before 7:30."

She hopped out but, there was nobody in the park. She became sad and sat on a bench. She wished someone would come play with her, suddenly the ground started to shake and a figure appeared. It was scary looking, it was black in color & it was very HUGE. It said, "Hi my name is Dark and I am here to take you on a trip. Daisy was scared but still asked him, "Ok but will you do anything to me." Dark replied softly, "I will not do anything." Daisy smiled and got on Dark's back then they zoomed off into the night sky. They went up & up & up. Daisy said, "you are very nice." Dark said, "You too, but I never had a friend." His eyes started filling up with tears. Daisy said, "I will be your friend, I promise." Dark smiled. On their way they saw fireworks.

Daisy & Dark laughed through out the trip. Daisy looked at her watch and the time was 7:00 she said, "it is time for me to go home, Dark." Dark said, "Why?" Daisy said, "My mother told me to come before 7:30." Dark frowned and said, "Oh really." And on their way back they were sad. When they reached her home Dark said, "I guess this a good bye." As he was walking back Daisy came and hugged him so tight. Dark was happy and in pain he said, "let go of me I will not survive." Daisy and Dark started to laugh so hard. Daisy said, "I promise I will never ever forget you." Dark said, "Stop or else I will cry." They both started to laugh again. Dark said, "Goodbye best friend." Daisy went to open her door and Dark flew into the night sky.

When she opened the door her mother smiled at her and asked, "And what were you doing little girl?" She said, "A thing that I should only know." Just then Jack asked, "How are you so brave?." Daisy proudly said, "If you go out at night you will understand." Danny said, "We are better of not knowing." All of them burst out into laughter, as Daisy was laughing she saw Dark outside the window Daisy and Dark winked at the same time. Daisy

whispered, "You will always be my secret friend." After this day Daisy and Dark have been going on many trips each trip they understood more about each other. Dark and Daisy lived happily ever after.
